A veterinarian will perform a physical exam prior to sedating your pet.

*The cost of procedural sedation includes a nail trim and optional placement of an intravenous (IV) Catheter and fluid administration. Unless otherwise noted, your pet's nails will be trimmed, at no charge, while they are under sedation/anesthesia. Some of these options may also be required by the doctor based on pet's health, age, and previous medical history, etc.

IV Catheter and Fluids: An IV catheter helps our staff and doctors to administer anesthetic drugs and will allow us to respond more quickly and efficiently in the event of an emergency. Fluids help to maintain blood pressure and eliminate anesthetic drugs from the body.

IV Catheter & Fluids \$70.73
